

Commercial Interior Lighting Rebates

2024 Changes to Commercial Lighting Rebates

Interior Lighting	2023	2024	Notes
Replacement Lamps			
T12/T8 Fluorescent to ≤ 13W T8 Two-Foot TLED	\$9.00	\$9.00	
T12/T8 Fluorescent to ≤ 17W T8 Three-Foot TLED	\$11.00	\$11.00	
T12/T8 Fluorescent to ≤ 23W T8 Four-Foot TLED	\$14.00	\$14.00	
T12/T8 Fluorescent to ≤ 45W T8 Eight-Foot TLED*	\$27.00	\$27.00	
T12/T8 Fluorescent to ≤ 23W T8 U-Bend TLED	\$15.00	\$15.00	
T5 Fluorescent to ≤ 18W T5 Four-Foot TLED	\$17.00	\$17.00	
T5HO Fluorescent to ≤ 29W T5HO Four-Foot TLED	\$35.00	\$35.00	
T8/T5 TLED to TLED (3-4W reduction)	Site Specific	\$3.00	New Offering
T8/T5 TLED to TLED (≥ 5W reduction)	\$5.00	\$7.00	Increased Incentive
Four Pin-Base CFL to ≤ 18W Four-Pin Plug-in LED lamp	\$18.00	\$18.00	
20-50W MR16 to ≤ 9W MR16 LED	Site Specific	\$9.00	New Offering
Replacement Fixtures			
Four-Foot T12/T8 Fluorescent to ≤ 40W 1X4 LED Fixture	\$40.00	\$40.00	
Four-Foot T12/T8 Fluorescent to ≤ 40W 2X2 LED Fixture	\$36.00	\$40.00	Increased Incentive
Four-Foot T12/T8 Fluorescent to ≤ 60W 2X4 LED Fixture	\$60.00	\$75.00	Increased Incentive
Eight-Foot T12/T8 Fluorescent to ≤ 90W Eight-Foot LED Fixture	\$85.00	\$90.00	Increased Incentive
4-Lamp T5HO Fluorescent to ≤ 130W LED Fixture	\$100.00	\$120.00	Increased Incentive
6-Lamp T5HO Fluorescent to ≤ 165W LED Fixture	\$210.00	\$210.00	
175W HID to ≤ 75W LED Fixture or Lamp	\$145.00	\$150.00	Increased Incentive
250W HID to ≤ 140W LED Fixture or Lamp	\$265.00	\$300.00	Increased Incentive
400W HID to ≤ 175W LED Fixture or Lamp	\$325.00	\$325.00	
1000W HID to ≤ 400W LED Fixture or Lamp	\$560.00	\$600.00	Increased Incentive
≥ 42W CFL to ≤ 20W LED Fixture	\$20.00	\$20.00	
65W Incandescent to ≤ 10 watt LED Fixture	\$45.00	\$55.00	Increased Incentive
75-100W Incandescent to ≤ 20W LED Fixture	\$60.00	\$65.00	Increased Incentive
≥ 150W Incandescent to ≤ 30W LED Fixture	\$75.00	\$85.00	Increased Incentive
Controls			
Ceiling or Fixture Mount Occupancy Sensor	\$75.00	\$75.00	
Wall Switch Occupancy Sensor	\$17.00	\$17.00	
Networked Lighting Controls	\$150.00	\$150.00	

Please see Commercial Lighting Incentive Requirements for detailed eligibility requirements

Commercial Exterior Lighting Rebates

2024 Changes to Commercial Lighting Rebates

Exterior Lighting	2023	2024	Notes
HID Lighting			
70-89W HID to ≤ 25W LED Fixture or Lamp	\$85.00	\$85.00	
90-100W HID to ≤ 30W LED Fixture or Lamp	\$120.00	\$120.00	
150W HID to ≤ 50W LED Fixture or Lamp	\$180.00	\$180.00	
175W HID to ≤ 100W LED Fixture or Lamp	\$180.00	\$180.00	
200W HID to ≤ 140W LED Fixture or Lamp	Site Specific	\$120.00	New Offering
250W HID to ≤ 140W LED Fixture or Lamp	\$230.00	\$230.00	
320W HID to ≤ 160W LED Fixture or Lamp	\$280.00	\$280.00	
400W HID to ≤ 175W LED Fixture or Lamp	\$375.00	\$375.00	
575W HID to ≤ 300W LED Fixture or Lamp	\$400.00	\$400.00	
750W HID to ≤ 300W LED Fixture or Lamp	\$750.00	\$750.00	
1000W HID to ≤ 400W LED Fixture or Lamp	\$930.00	\$930.00	
1500W HID to ≤ 600W LED Fixture or Lamp	\$1,300.00	\$1,300.00	
T12/T8 Fluorescent to T8 TLED (≥ 18W reduction)	Site Specific	\$20.00	New Offering
New Construction Lighting			
175W Code HID Fixture to ≤ 100W LED Fixture	\$170.00	\$170.00	
250W Code HID Fixture to ≤ 140W LED Fixture	\$225.00	\$225.00	
320W & 400W Code HID Fixture to ≤ 160W LED Fixture	\$250.00	\$250.00	
T12HO to LED Sign Lighting Retrofit			
T12HO to LED Sign Lighting	\$13.00	\$13.00	
Controls			
Exterior Networked Lighting Controls	\$85.00	\$85.00	

Please see *Commercial Lighting Incentive Requirements* for detailed eligibility requirements

Commercial Lighting Incentive Requirements

SITE ELIGIBILITY

Incentives are available for commercial facilities with electric service provided by Avista under rate schedule 11 or above.

PRODUCT ELIGIBILITY

It is a requirement to use version 5.1 Design Lights Consortium (DLC) or Energy Star® rated lighting products. Go to www.designlights.org search or www.energystar.gov/productfinder for the current qualified product list(s). Provide DLC, Energy Star or manufacturer spec sheet with application to verify product qualification. Products are eligible for incentive up to 120 days after they have been delisted.

8FT R17d base lamps do not require Energy Star or DLC rating but must comply with DLC Technical Requirements for 8' T8 Fa8 base lamps.

Interior Network Lighting Controls: Luminaires must be individually addressable.

Luminaire Level Lighting Controls (LLLC) must be listed as Luminaire Level Lighting Control (LLLC) on the DLC and must have a minimum of 2 control strategies.

Area Level Lighting Controls must have a minimum of 3 control strategies.

Eligible Control Strategies include:

Sensor -Based Strategy (requires at least 1):

- Occupancy Sensing (on/off and/or dimming)
- Daylight Harvesting with continuous dimming

Tuning:

- High-end trim (not applicable with daylight harvesting)
- Advanced scheduling/zoning
- Personal tuning with continuous dimming

TLED: Type A, B and C qualify for the incentive.

Exterior Lighting: Requires at least 82.5 hours of operation a week (dusk to dawn) prior to any controls reductions.

E26 screw base lamps do not qualify under this agreement.

HID Replacement Lighting: Lamps are eligible only if ballasts and all other existing electrical components are removed.

Sign Lighting: Incentive available for internally illuminated signage. For double sided signs count only one side of the square footage unless more than one individual cabinet exists. Lighting placed under awnings does not qualify. The life expectancy of the LED and driver must be greater than 40,000 hours of operation and have a warranty of 5 years or greater.

Exterior Network Lighting Controls: Luminaires must be individually addressable. Requires use of LLLC system listed and approved under 'Exterior' DLC Scope category. Must employ Occupancy Sensing and Advanced Scheduling/Zoning.

Non-Networked Occupancy Sensors do not require Energy Star or DLC rating.

Display case LED requirements Must install an LED lighting system in an existing reach-in or open multi-deck refrigerated case. The installed product must appear on the Design Lights Consortium Qualified Products List (DLC) and be rated for at least 50,000 lifetime hours. Fluorescent magnetic ballasts cannot be used to power the LED. Total number of feet of LEDs eligible for incentives shall not exceed the total number of feet of the fluorescent lamps replaced. Low power is ≤ 4.5 Watts per foot. High power is ≥ 4.5 and ≤ 8.5 Watts per foot.

INCENTIVE PAYMENT

Invoice(s) must accompany Agreement and be submitted within 120 days of project completion. Invoice(s) should include quantity, model number and cost of new equipment purchased and if applicable, taxes, permit fees, lift and disposal costs and labor charges.

Incentive payment will not exceed 100% of provided invoiced costs. In-house labor may be included by submitting details on customer letterhead or email with the following: Description of work performed, hourly labor rate, total number of hours and the total in-house labor amount.

There will be no incentive for lamps or fixtures beyond the existing quantity. The incentive will be applied to the new installed quantity count as noted on the invoice.

VERIFICATION

Avista reserves the right to verify installations any time before or after payment is issued. One sample of each lamp/fixture replaced must be retained for 30 days after Avista's receipt of this form to enable Avista to verify the previous lighting condition. Projects at or over a \$25,000 incentive require photo post-installation verification. Photos shall include a general shot of each space/area, showing the lights and/or controls, along with closeup shots of each unique light fixture.

If your lighting replacement does not fit the requirements, please contact your Account Executive to have your lighting project evaluated through Avista's Site Specific Program.
