

Office Use Only _____ Date Received _____

Avista Utilities is committed to working with customers using electrical medical equipment in their homes. Although we cannot guarantee that electric service will not be interrupted by a storm, an accident, or by unforeseen equipment failure, we will make every effort to supply your household with safe and reliable electric service.

If you have not done so, you should make provisions for a secondary source of power for your medical equipment, be it mechanical or a change of location such as a hospital which would have its own on-site generation.
