

Look up and look out for powerlines.

myavista.com/safetyvideos

A worker wearing a grey cap, sunglasses, a green t-shirt, and grey overalls is using a high-pressure water spray on a corrugated metal roof. The worker is wearing green gloves and is holding a long, silver spray wand. The background shows green trees and a clear blue sky.

AVISTA

Keep yourself and your tools away from powerlines.

When working or playing outdoors, be aware of overhead powerlines. You could come in contact with a wire and be electrocuted by carrying a ladder, working on the roof or trimming trees. Long-handled pool-cleaning tools can also reach lines.

Tell kids to watch out for powerlines, too, when climbing trees, flying kites and playing with water blasters and soakers. Anyone flying a drone needs to be careful, as well. We just want you to be safe.
