

Line Excess Allowance Program (LEAP)

How the Line Excess Allowance works with Residential Rebates

Residential customers in Washington who request natural gas service (Schedule 101) can take advantage of energy efficiency rebates and the Line Excess Allowance Program (LEAP). This offer applies to both Avista electric and non-Avista electric customers in Washington only.

To be eligible, customers must install a **natural gas hot water** and/or **high efficiency natural gas furnace** within 90 days of receiving natural gas service. Customers must also submit the LEAP and/or Energy Efficiency Rebate application form(s) within 90 days of their new natural gas equipment being installed.

Possible Energy Efficiency Rebates

Equipment	Qualifies for LEAP	Single Family UP TO 4-PLEX	Multi Family 5-PLEX AND UP
Avista Electric Customers with Electric Furnace or Baseboard Heat			
Converting from Electric to Natural Gas Furnace		\$1,500*	\$350
Converting from Electric to Natural Gas, Furnace and Water Heater Combo	●	\$2,250*	\$700
