

Idaho Residential Energy Efficiency Rebates

Rebate Requirements

All rebates require contractor installation except for self-installed WIFI Enabled Thermostat. Electric to natural gas furnace conversion eligibility still requires customer to heat primarily with electric straight resistance. Customer usage will be reviewed and must demonstrate that at least 10,000 kilowatt-hours of electric straight resistance heat and less than 340 therms occurred in the last 12 months in order to be eligible for rebate. For weatherization rebates usage must be over 8,000 kilowatt-hours of electric straight resistance heat or over 340 therms for natural gas customers.

2019 Changes to Residential Energy Efficiency Rebates

Residential	Effective January 1, 2019	Effective August 1, 2019	Notes
Heat Conversions			
Electric to Natural Gas Furnace + Water Heater - Combo	\$1,700	\$2,850	Increased Incentive
Electric to Natural Gas Furnace	\$1,200	\$2,100	Increased Incentive
Electric baseboard to Ductless Heat Pump (HSPF 9.0 or greater)	\$500	\$500	No Change
Electric to Air Source Heat Pump	\$700	\$700	No Change
High Efficiency Equipment			
High Efficiency Natural Gas Furnace/Boiler (90% AFUE or greater)	\$300	\$450	Increased Incentive
High Efficiency Natural Gas Furnace/Boiler + (Electric) Variable Speed Motor	\$380	\$530	Increased Incentive
Natural Gas Tankless Water Heater (≥ 0.82 UEF)	\$215	\$400	Increased Incentive
Natural Gas Water Heater (≥ 0.65 UEF)	\$60	\$100	Increased Incentive
Variable Speed Motor (AKA-ECM)	\$80	\$80	No Change
Electric Heat Pump Water Heater (≥ 1.80 UEF)	\$215	\$215	No Change

Residential Energy Efficiency Rebates continued on the back

2019 Changes to Residential Energy Efficiency Rebates

Residential	Effective January 1, 2019	Effective August 1, 2019	Notes
Weatherization			
Replacement Windows-Single Pane to Double .30 or less U-factor	\$3	\$3	No Change
Storm Windows	\$2	\$2	No Change
Attic Insulation (existing \leq R11 to \geq R49 insulation)	\$0.45	\$0.45	No Change
Wall Insulation (existing none to \geq R11 insulation)	\$0.40	\$0.40	No Change
Floor Insulation (existing none to \geq R19 insulation)	\$0.20	\$0.20	No Change
Miscellaneous			
Energy Star Rated Manufactured Home - Gas Only Customer	\$200	\$400	Increased Incentive
WIFI Enabled Thermostat - Contractor Install	\$75	\$75	No Change
WIFI Enabled Thermostat - Self Install	\$60	\$60	No Change
Energy Star Rated Manufactured Home - Electric or Electric/Gas Customer	\$650	\$650	No Change
Multi-Family			
Multi-family Natural Gas Furnace or Boiler (90% AFUE or greater)	\$50	\$50	No Change
Multi-family Conversion from Electric to Natural Gas Furnace	\$350	\$350	No Change
Multi-family Conversion from Electric to Natural Gas Furnace + Water Heat - Combo	\$700	\$700	No Change

Rebate changes are effective August 1, 2019.
