

# Look up and look out for powerlines.

[myavista.com/safetyvideos](https://myavista.com/safetyvideos)

A worker wearing a grey cap, sunglasses, a green t-shirt, and grey overalls is using a high-pressure water spray on a metal roof. The worker is holding a long, silver spray wand with both hands, and a fine mist of water is being directed at the roof's surface. The background shows a clear blue sky and green foliage.

# Keep yourself and your tools away from powerlines.

When working or playing outdoors, be aware of overhead powerlines. You could come in contact with a wire and be electrocuted by carrying a ladder, working on the roof or trimming trees. Long-handled pool-cleaning tools can also reach lines.

Tell kids to watch out for powerlines, too, when climbing trees, flying kites and playing with water blasters and soakers. Anyone flying a drone needs to be careful, as well. We just want you to be safe.
