

Hey,
it's cold
outside.

Lower winter temperatures can mean higher heating bills.

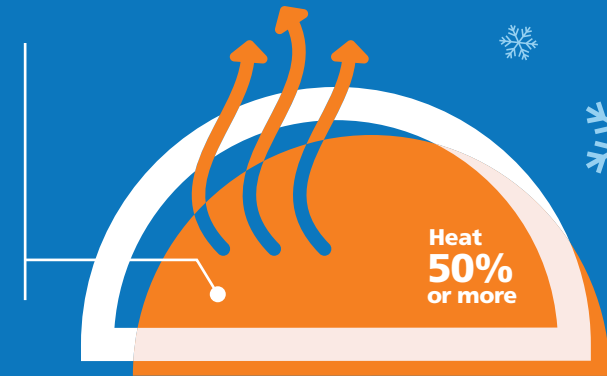

Learn what affects your energy usage so you can make adjustments to save.

AVISTA[®]

Heating your home can account for over half your monthly winter energy bill. A small change can make a big difference.

27 days \neq 35 days

Your monthly energy bill can vary due to the length of each billing cycle, which ranges from 27 to 35 days.
