## Join Avista's Buck-A-Block program.

An extra buck (\$1) added to your monthly Avista payment covers the cost of a block (300 kilowatt hours) of renewable energy credits (RECs). This voluntary program helps cover the cost of RECs from qualified renewable energy sources like wind and solar.

Your subscriptions:

- Support the development of clean, renewable energy
- Help to eliminate carbon emissions
- Let you reduce your own environmental impact

**Decide how many blocks you want and subscribe today.**
